

Assignment 1

063-0610-00L The Digital in Architecture I

Spring Semester 2020

Gramazio Kohler Research, ETH Zürich

Due: -

Task 1

To get into Rhino User Interface (UI) go through the different aspects shown in the exercise session. Create an interface that adjust more to your design needs and afterwards explore different commands and possibilities that Rhino offer you in order to create different geometries. Go Step by step from point, lines, surfaces, solids to primitives and try in the command line to change different settings available.
